

"Thoughts find a world and creates one also"

... beware
which way you
lean to, it
may make you
or destroy you

↓

- realisation of idea
- execution of your thoughts

Intro:

Our day to day lifestyle is directly affected by our actions, habits and incorporation of technology.

Technology - a boon or a bane is a debate, however, the case of life we have today is contributed

by great minds - an idea, which eventually giving birth to a reality.

- First Steam locomotive [Richard Trevithick]

⇓
easing transport / commute

- Practical telephone [Alexander Graham Bell]

- Mikhail Kalashnikov designed durable and reliable weapons inspired from Germans after WWII

- Wright Brothers

- How an outbreak, COVID-19, increased world's vigilance regarding pandemic and how much it is necessary to be prepared.

- Every problem, hardship makes mankind to think and adapt to challenges — today's it is pollution, and energy (clean) demand and many more

↓
invoking expenditure of resources
and enabling collaboration
among nations to combat it

- On the other spectrum of thoughts, some are powerful enough to bring change in the mindset of a person

Could be
used for
Inversion!

→ • depressive thoughts:

clouds positivity and shrouds
us in darkness, making us susceptible
to rash and ill decisions and actions.

→ • feeling of supremacy (birth of racism, casteism)

• ignite the will power and foster a lasting
transformational in personality.
